HEHOP

launched in June 2020

To:

Capture evidence of violence

Make the **evidence tamper-proof**

Secure evidence in a digital safe

Allow **traceability of the evidence** from its capture to its transfer to judicial authorities

Evidence is automatically registered in the blockchain, geolocated, timestamped, encrypted and stored in a digital safe

HEHOP

Take a media

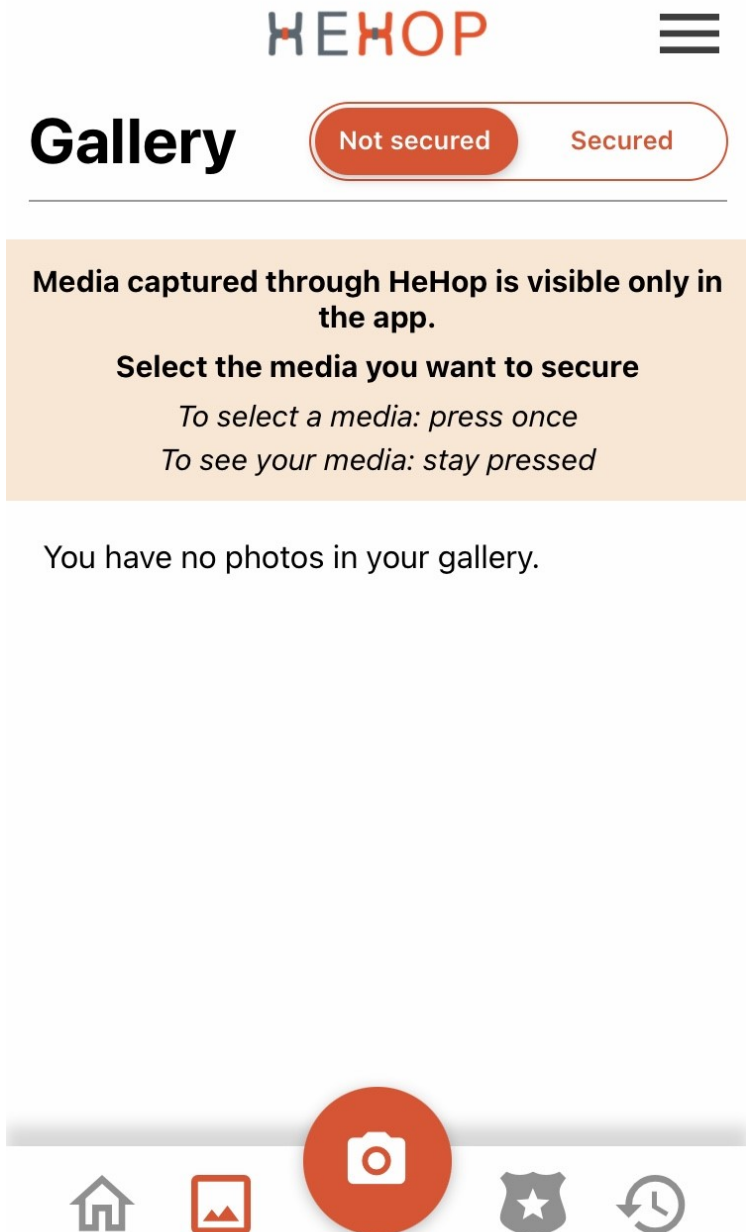

Access the gallery

How does the APP work?

*In legal proceedings, these media will constitute
tangible and guaranteed non-falsified evidence of
what happened to you.*

Users choose whether they want to see the collected evidence in the app

Media files displayed in the secured gallery have been automatically registered on the blockchain and transferred to a digital safe

Avoid data deletion, theft, loss, blackmailing, tampering

Files stored on a sovereign data center vs. the cloud

Collection of evidence

By using HeHop, you protect and secure in a digital safe OR vault the evidence necessary for the constitution of your legal case.

This button automatically generates a first code (numeric key)

Request a code

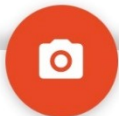

This code must be completed with a 2nd code to open your digital safe.

To retrieve this second digital key and the procedure for connecting to your digital safe, contact us at support@hehop.net.

You can also authorize us to communicate this key to:

- an association and/or a lawyer who supports you in your legal proceedings
- an investigator of the gendarmerie or the police who processes your complaint

Any communication of the second digital key will be subject to verification of the identity of the applicant.

**Double digital key
to
open the digital safe
and
retrieve the evidence**
