MOMLANCERS

WHY

MOMLANCERS?

Momlancers starts with two professional women who after becoming moms question themselves: their priorities, lifestyle, and career.

REGINA CABAL

Co-Fundadora

Consultant in innovation and strategy with more than 13 years of experience, Redbox, BBDO, DDB, Publicis. Mom of two girls

KATIA MOYE

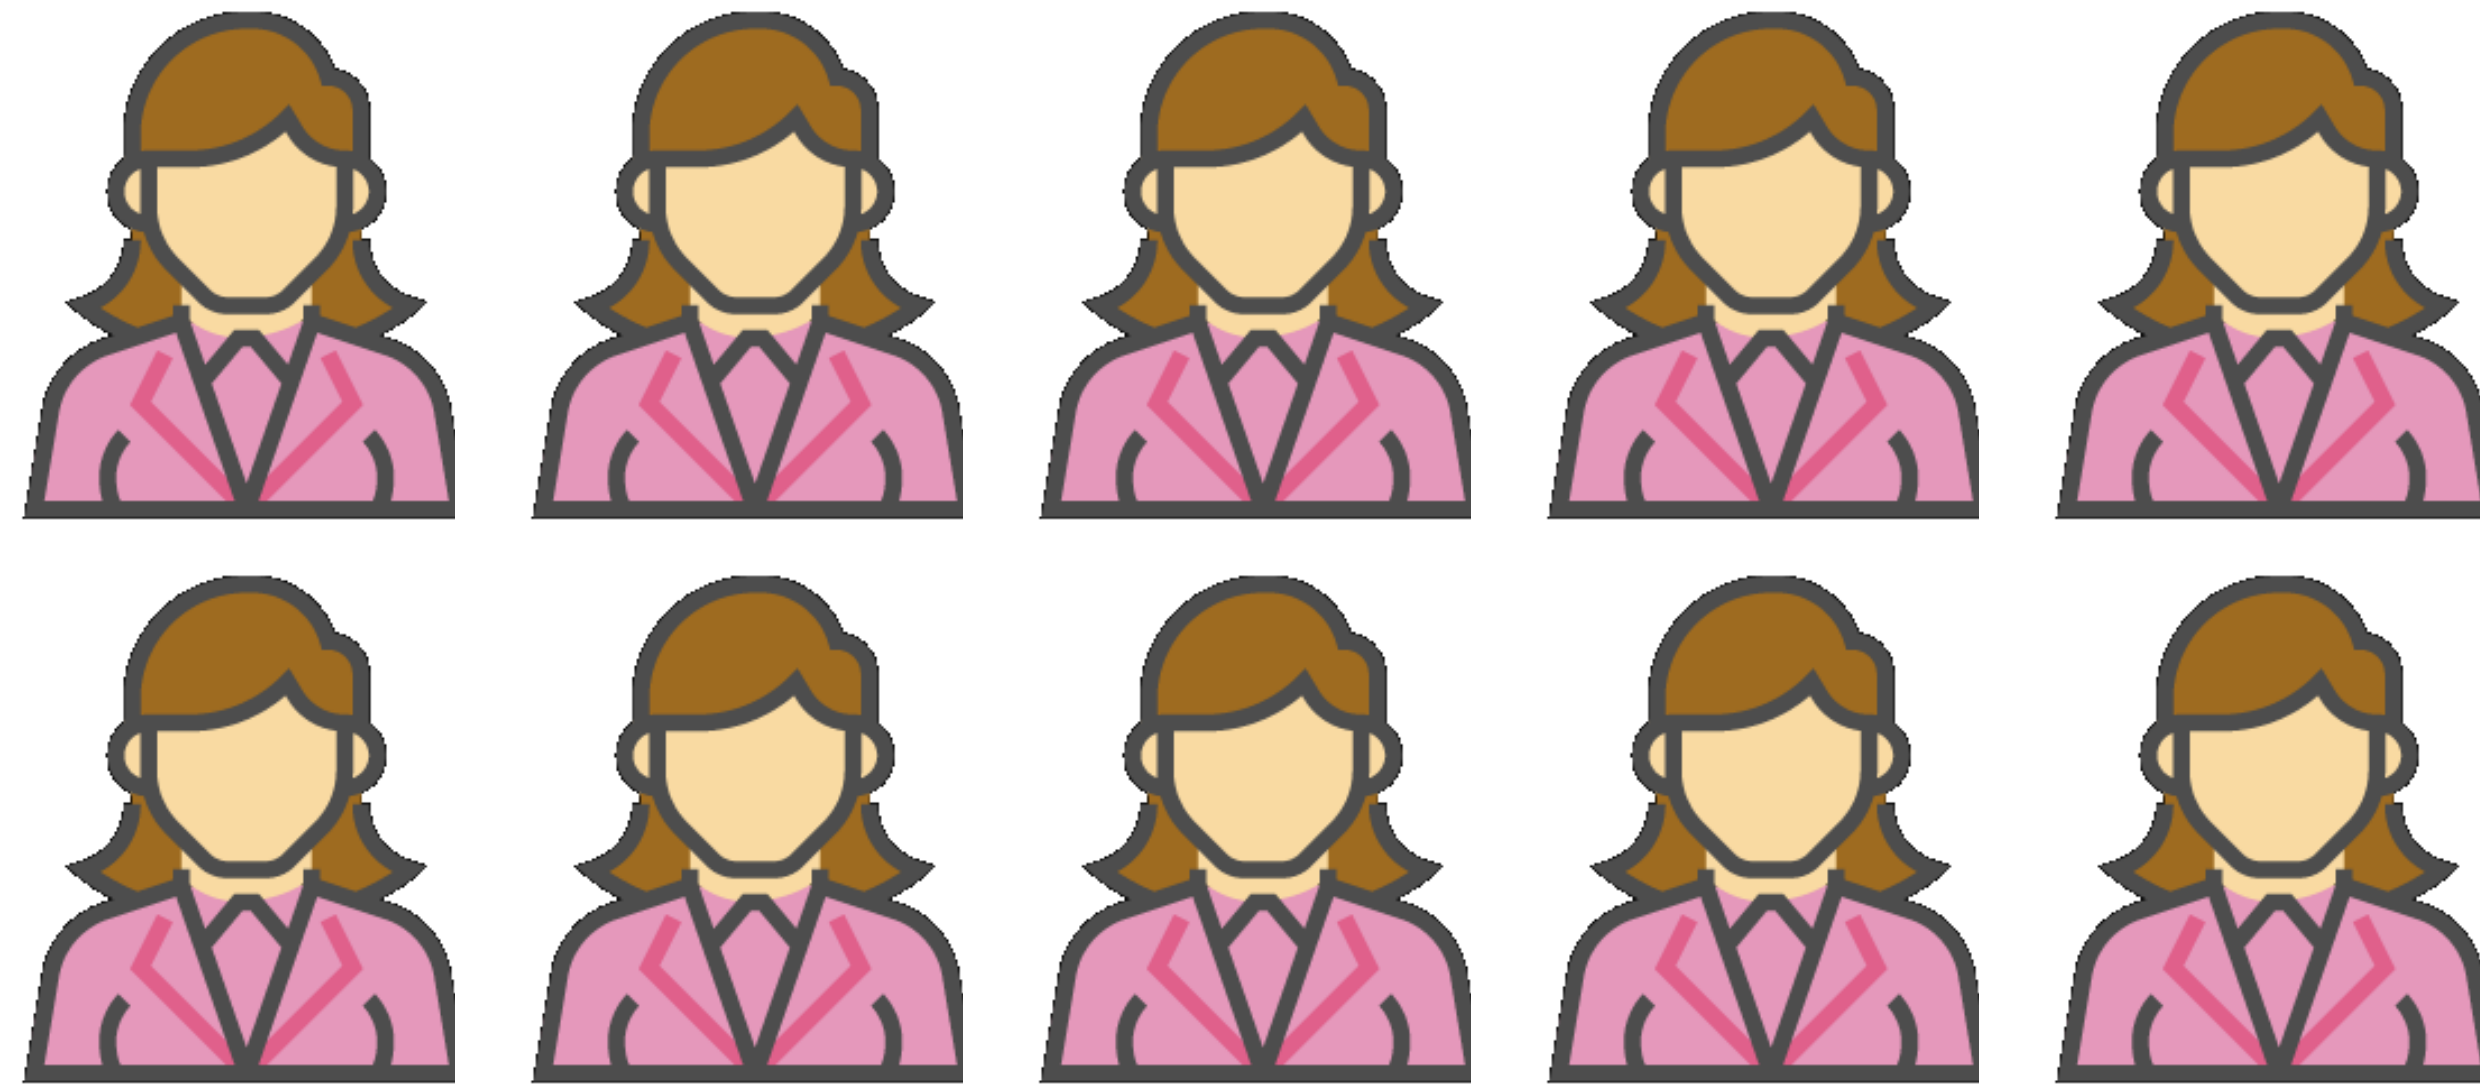

Co-Fundadora

Financial and marketer with more than 10 years of experience, Yum, Mattel. Mom of two kids.

For professional moms, flexibility is more important than having a good pay or even a good position.

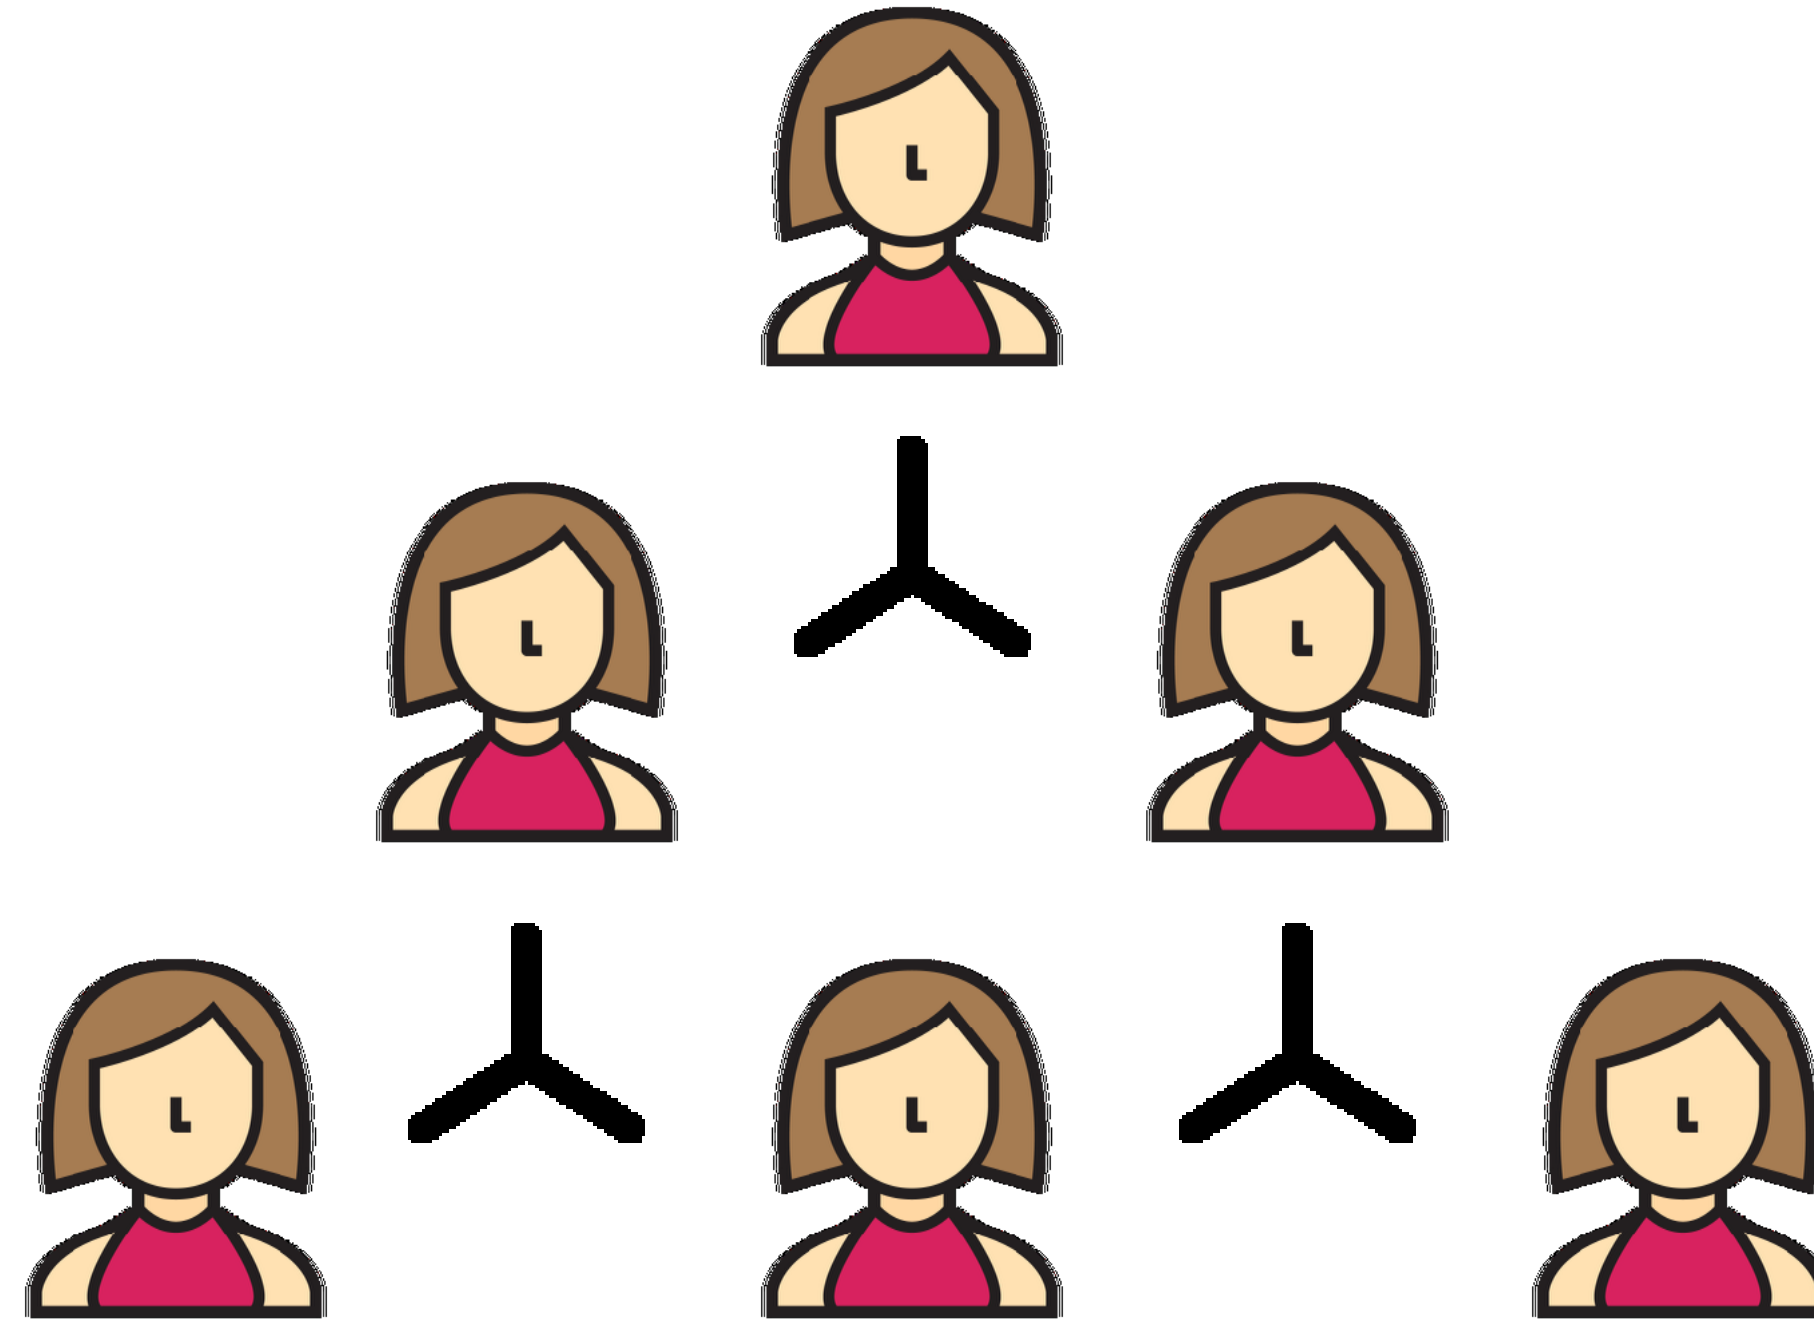

7 out of 10 moms who try to negotiate a flexible scheme get no for an answer.

51% of working mothers think that it is extremely difficult to manage the trade offs between personal and work life after becoming mothers.

Out there, there's an army of women extremely capable and eager to work.

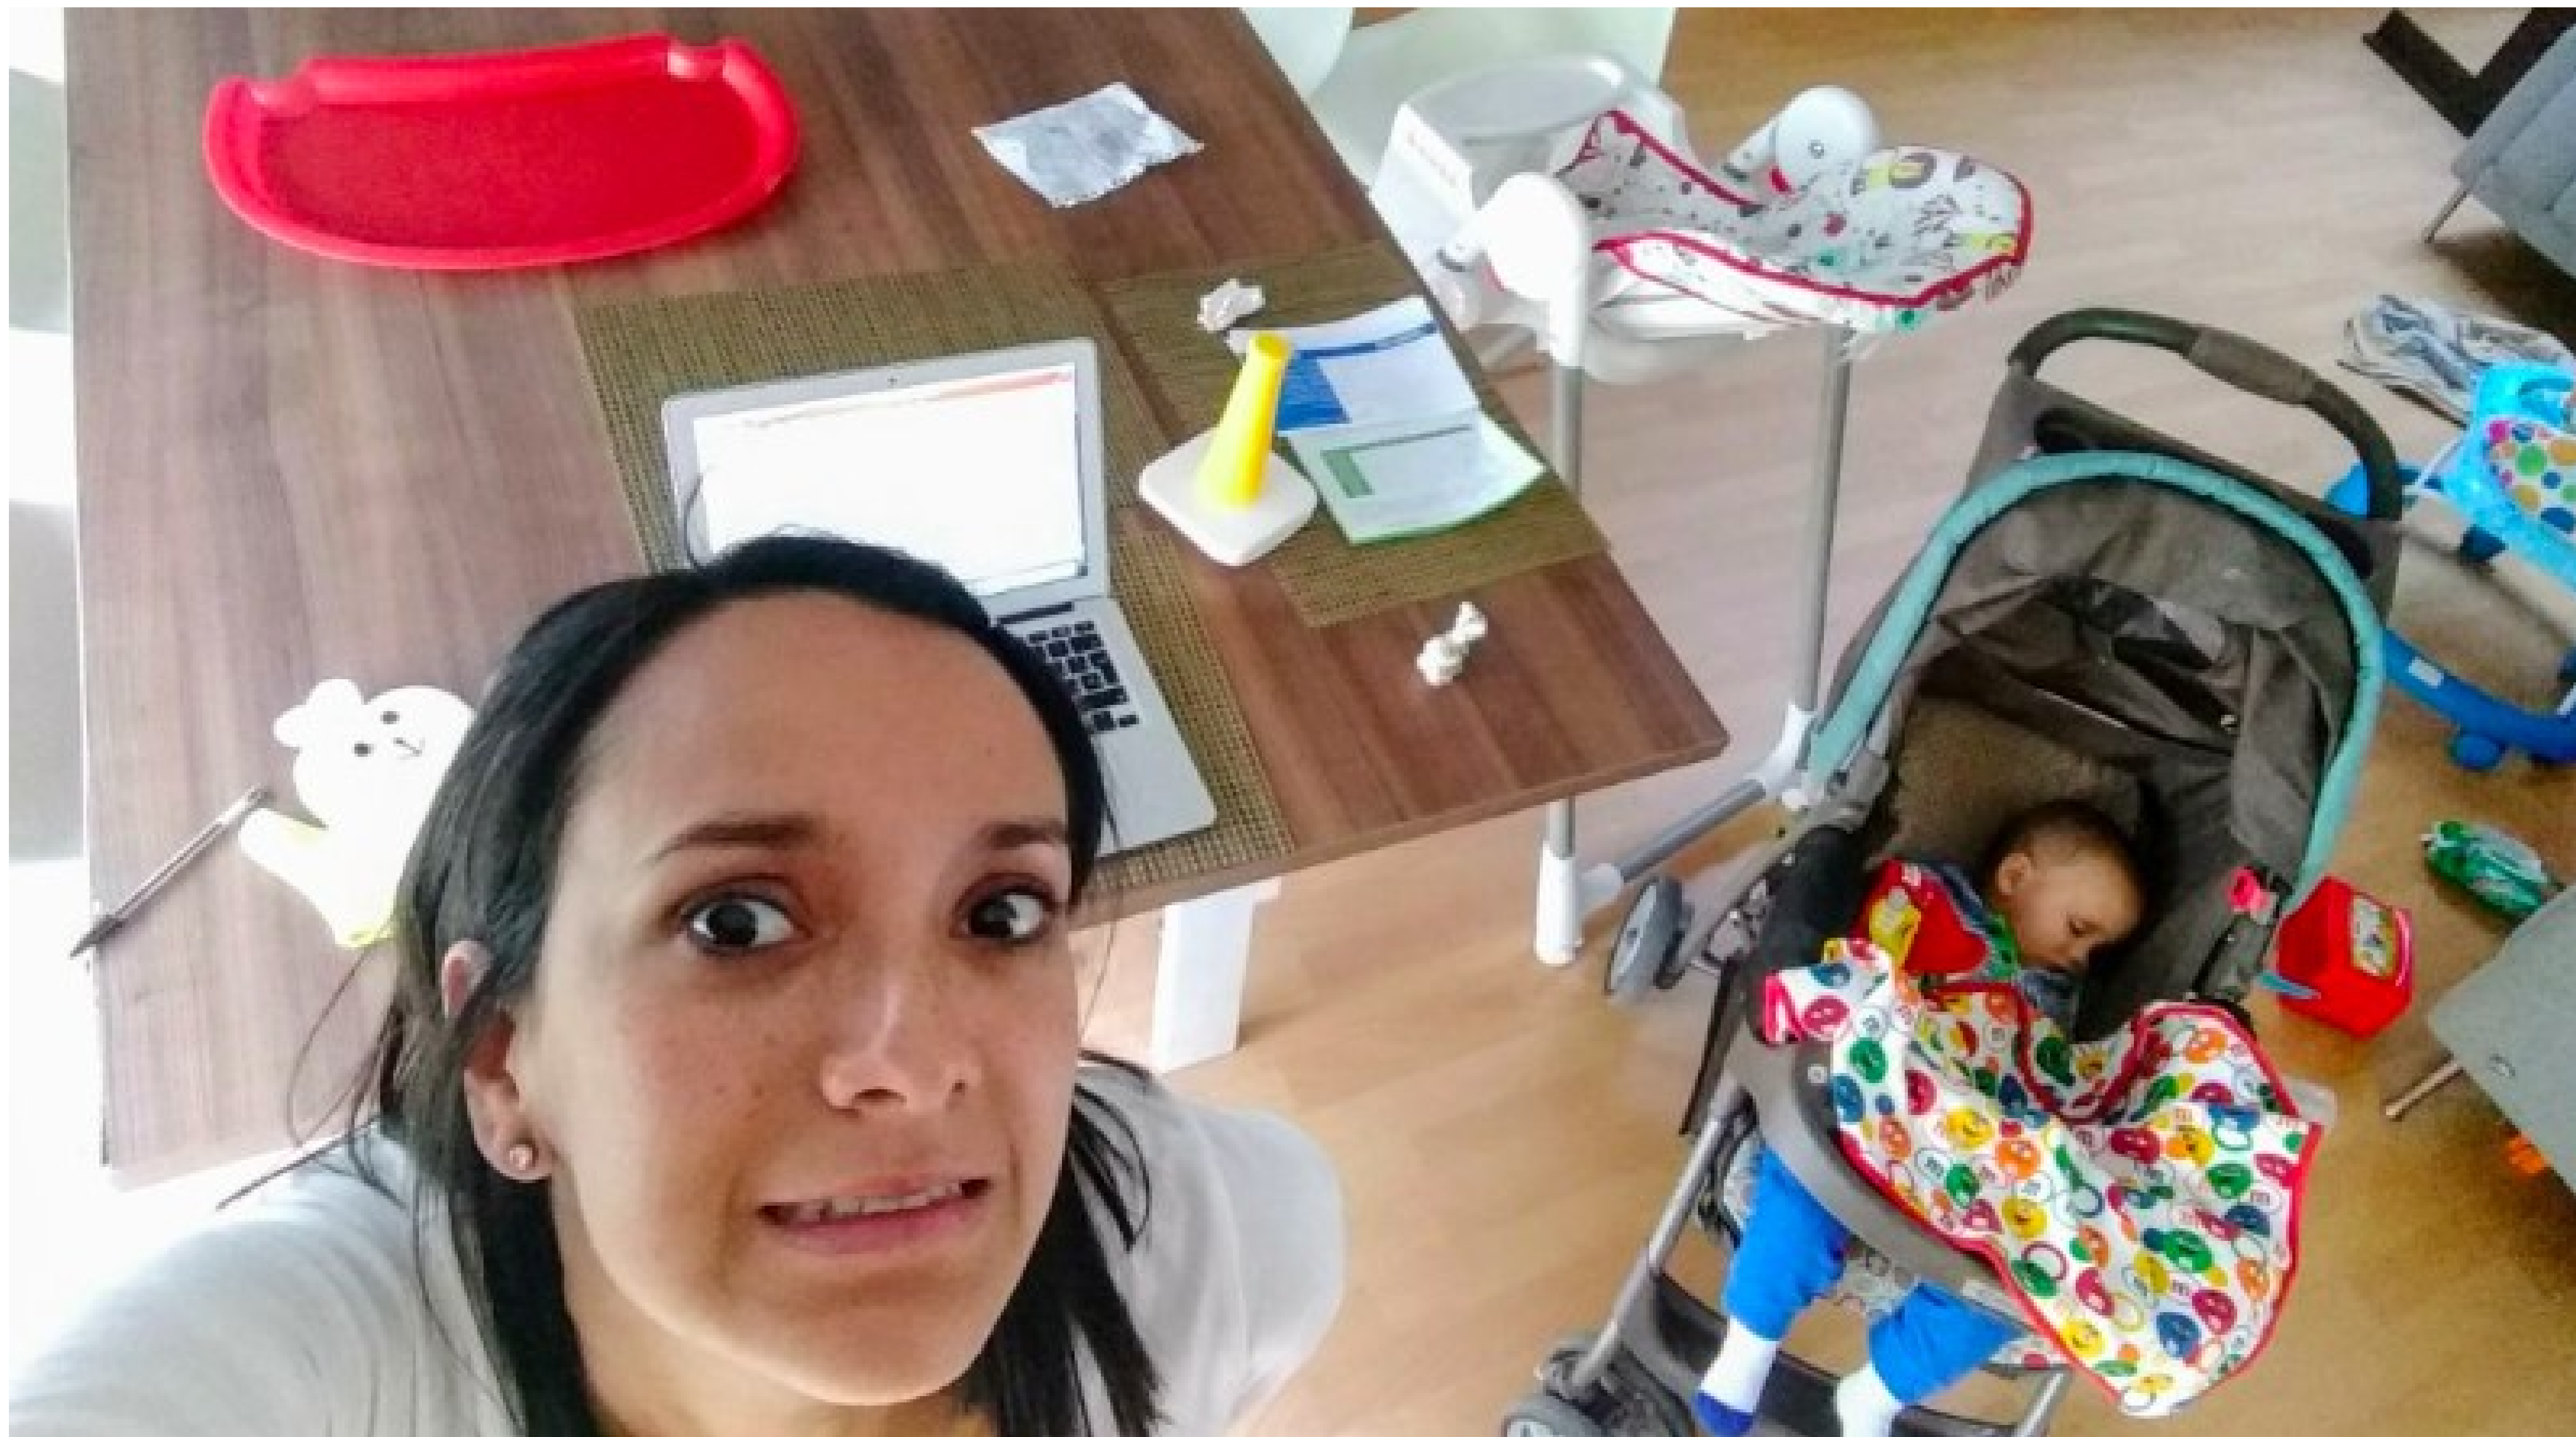

Momlancers are very talented; they have at least 5 years experience, are rated by their ex-employers, and interviewed by our team.

We will love to say that a
working mom at home
looks like this...

Real life....
